Reply of Government.—The question of carrying out the work, which has been treated as a famine project, as an ordinary work, is under consideration.

SUBJECT No. 397.

Repairs to channels drawn from the Suvarnavati.

Mr. Venkatasamaiya, Chamrajnagar taluk.

Summary of discussion.—A large allotment may be provided in the budget to enable repairs being executed to these channels.

Reply of Government.—Noted.

SUBJECT No. 398.

Repairs to the Chikka Yagati tank.

Messrs Linganniah, Mandya taluk; Chandrasekhariah, Nagamangala taluk, and Venkatasamiah, Chamrajnagar taluk.

Summary of discussion.—The repairs of Chikka Yagati tank may be undertaken soon, as prayed for from a very long time. The raiyats have agreed to pay contribution. The work is likely to be remunerative.

Reply of Government.—Under consideration in the Public Works Department. If the raiyats are prepared to give contribution, the work will be undertaken soon.

SUBJECT No. 399.

Hot weather supply.

Mr G. Narasimhachar, T.-Narsipur taluk.

Summary of discussion.—After installation of Power Works at Sivasamudram, the hot weather supply for sugar cane crops has been discontinued for lands under the Ramaswami channel. Wet crops cannot be raised on the lands bordering the river on account of their submersion during floods. It is therefore prayed that orders be issued to supply water for sugar cane cultivation for one month either in March or April.

Reply of Government.—The Revenue Commissioner has been asked to consider the subject in consultation with the Deputy Commissioner and the Public Works Department about the additional supply of water to lands under these channels.

SUBJECT No. 400.

An anikat across the Lokapavani.

Messrs. Linganniah, Mandya taluk, and Chandrasekariah, Nagamangala taluk.

Summary of discussion.—It is prayed that an anikat be built across the Lokapavani near Gangavadi as the work is beneficial to the people and remunerative to Government.

Reply of Government.—Recorded.

SUBJECT No 401.

Construction of a tank at Doddanerle.

Messrs. C Subba Rao and Chendrasekhara Upadhayaru, Hunsur taluk

Summary of discussion.—Villages in Harnahalli hobli are being rendered *bechirakh* every year on account of the wild growth of lantana. At Doddanerle there are facilities for constructing a tank. If this is done, it will be profitable to Government and beneficial to the people inasmuch as a large extent of land will be brought under cultivation and the growth of lantana thereby checked.

Reply of Government.—This project is reported by the Public Works Department to be very costly.

SUBJECT No. 402.

Extension of channels.

Messrs. B. Ramannah and Venkatsubbiah, Krishnarajpete taluk, and Lingegowda, Mysore taluk.

Summary of discussion.—It is prayed that the Hemagiri and Mandagiri channels be extended. This question is being urged from a very long time.

Reply of Government.—Will be done after the Kannambadi Reservoir is completed.
